

OFFICIAL NOTICE

Mexico City, March 9, 2026

The National Chamber of Commerce, Services and Tourism of Mexico City (CANACO), in its ongoing commitment to facilitating international trade and strengthening business competitiveness, hereby informs all users that the service for the issuance of ATA Carnets for temporary export from Mexico and the registration of ATA Carnets originating abroad for their entry into national territory has been resumed.

With the primary objective of ensuring that the foreign trade operations of our members and users are carried out with full normality and legal certainty, we have reactivated our service and processing system. Please note the following:

1. We are currently implementing updates to our registration portal designed to strengthen the traceability and security of information, in order to ensure that our processes remain aligned with the requirements established by the competent authorities under the current General Rules on Foreign Trade (RGCE). Likewise, we inform you that our service scheme and operating conditions will soon enter an update phase, which will include a price adjustment for the registration process of each ATA Carnet and the ATA registry. This update will be formally communicated with the corresponding details through our official channels.
2. Please note that the proper management of the ATA Carnet is a shared responsibility. We kindly urge users to verify strict compliance with re-exportation deadlines and ensure the proper stamping of documents at the relevant control points.
 - o *Consult the closing procedure for foreign carnets at: <https://carnet-ata.org/nuestros-servicios/importe-mercancias-de-manera-temporal-con-un-cuaderno-ata-extranjero/>*
3. The International Trade Directorate and our technical team remain fully available to provide technical guidance and support throughout each of your procedures. We will continue working to ensure that the ATA Carnet remains the most efficient instrument for temporary import and export.

Servir es un privilegio
